

Network Meter

Another small gadget that will monitor the traffic of your network, uploading, downloading, size downloaded etc...

Info

- Monitor network transfer speeds (download/upload) in KB/s or Kbit/s
- Monitor uploaded and downloaded size.
- Lite customisation (values, colors, skins...).

Note

You can also use my Multimeter which gives you the same values with history graphs and full customisation. The MultiMeter also shows external and local ip infos, the strengths of the wireless connection etc...
